The Pools society of this city will eclebrate the 28th, next Friday, the anniversary of the Recognition of the Independence of the Hawaiian Islands, by Great Britain and France, by having a grand feast at the Hawalian Hotel, at which we have no doubt, good cheer and enjoyment will prevail.

Miss Zoe Gayton, the celebrated Eastern actress, having falled to gather a company here. satied for San Francisco by the steamer Australia, for the purpose of bringing down a company of dramatic performers, Miss Gavion will return on or about the 1st of January and we are promised some good plays by berself and company.

THANKSGIVING .- The Thanksgiving sermon will be delivered by the Rev. Dr. Damon, at Fort Street Church, Thursday the 27th inst., at Il o'clock A. M. The President of the United States has set apart the 27th inst, this year as the day to be observe throughout the United States, and it is hoped will be observed by all good Americans elsewhere—and at Honolniu particularly.

THE HEALTH OF THE CITY.-We are pleased to state that the typhoid fever and measles have entirely disappeared, and the health of the city is generally very good. The high trade winds which we have had lately and the cool nights have purified the stmosphere, and thereby restored the health of the city, which is a blessed relief from the fear and of a few weeks back which so harassed

The weather during four days of last week was unusually boisterous in this city and vicinity. It was not confined to Honolulu, as we learn, it extended to the other islands where it was even worse than here, very little rain but considerable wind. islands we learn that the crop prospects for the planters never were more encouraging than at the present moment. This will be good news for everybody on the islands, because all are interested in the success of the crops. Sugar will begin to come in in large quantities for trans-shipment, and new life will be infused into business circles.

Mr. E. P. Adams will hold a sale of Chinese goods, at his salesroom to-morrow, at 10 o'clock A. M. The invoice is large and comprises a variety of articles, for an enumeration of which we respect-fully refer our readers to the advertisement, to be found in the proper column of this issue. This sale offers rare indocements to purchasers, and the wise ones will take advantage of them by attending. Don't forget the sale, time and place.

CHANGE OF COMMANDERS.-Capt. E. D. Crang. has succeeded Capt. Bates in command of the coasting steamer Lehua. The new Captain is well and favorably known in this community. We have heard quite a number of persons expressing their regret at the removal of Capt. Bates, who has made himself very popular with the traveling community, by his affable and courteous manner, and gentlemanly deportment. He will certainly be greatly missed by the patrons of the Lehus.

Sportsmen acquainted with the respective merits of the suimals expect a closely contested race. and consequently considerable enjoyment. Don't forget the race at Ewa on the 28th, next Friday.

Prof. Wells will give an account of his experience, of thirty years, of constant travel around the world, on next Saturday evening. The Pro-lessor is an arorant of great experience, having made several bundred successful ascensions. Some very interesting experiments will be given in Electrical Psychology, Electro Biology, Nitrons Oxyd (laughing gas), and, If time will permit, in Paratiology The Professor will make a balloon secension from Honolulu as soon as the arrangements are perfected. The place of holding the lecture will be announced by hand bills.

A Bust Day .- As is usual on steamer day, last Monday was a busy day. The steamer Australia put in an appearance off the harbor at an early hour Monday morning, which caused our people to be stir themselves, especially those persons who al-ways wait till the eleventh bour to transact their ways want in the eleventh hour to transact their business. Those who always take time by the fore-lock were as usual servee, while the stay behinds were fassing, forming, fretting, and tumbling over everybody, to be in time with the business, which they could just as well have had ready like other

folks a week or at least three days ago. The Royal Hawaiian Band will give a moon light concert at Emma Square, on to-morrow (Thursday) evenlng, commencing at half past? o'clock. The following is the programme:

AN ERROR CORRECTED.-We find we were error in stating in our issue of last week, that the cror in stating in our issue of last week, that the Chinese gentlement Mr. Fan Yau Ki who came a passenger by the Hochung from China, was an accredited ambassador to this Government. We thought we might risk it for once to make the true.

JUDICIAL CONDENSATION.—We learn that the Supreme Court of this Kingdom delivered its decision on Monday the Sith inst., in the matter of the sine wanted. We support that this small addition on Monday the Sith inst., in the matter of the libel of the Hawaiian bark Kalakana, giving judgment of condemnation of the bark as prayed in the libel. The charge was smaggling opium into this fingdom. It will be remembered that this is the same vessel which was condemned in 1870 or 1877 for a similar offence. She was then called the "Mary Belle Roberts." The then owners of the "Mary Belle Roberts." The then owners of the "Mary Belle Roberts." The then owners of the "Mary Belle Roberts." Compromised with the Government for a stated sum and she was released. She was afterward put noder the Hawaiian flag and be mame changed to the Kalakana. Her present owners reside in San Francisco, as we are advised.

THE TRADE WITH HAWAIL.—The New York Commercial Bulletin of October 17th thinks that the statistics of trade with Hawaii show that it is well statistics of trade with Hawaii show that it is well worth preserving. California grocers, hardware desired desired, idealers, distillers, dry goods houses, tobacco manufacturers and floar merchants, all have a more or less increative market for their goods, which would be for the most part closed against them but for the admission of about the only two products the Islands have a fine same for the most part closed against them but for the admission of about the only two products the Islands have to dispose of sugar and rice. There can be no worse close of legislation than that proposed by the opponents of the reciprocity treaty. We have already enough of the solid of avaricious and intolerable monopoly in this country; hence the Hawaiian treaty ought to stand, if only to mark the line begond which monopoly or protection must not be permitted to go. Late Foreign News.

By the arrival of the steamer Australia on Mon day morning last, the 24th last, we have files of New Zealand papers down to the 11th inst. The news is very meager. The following avnopsis embraces all the news to the 11th lust, of a general character:

London, Nov. 8th .- The Irish landlords have organized a defence league, and are endeavoring to prove, through the Press and public meetings, that the agricultural distress is greatly exaggerated for political purposes.

The seditions and incendiary language of the

Home Rulers is causing serious agrarian outrages, and in many districts there is a system of intimida-

London, Nov. Sth.—Sir Garnet Wolseler has gone to Secoeni's country, and notified that he will make war against him if he retuses to submit. Calcutta, Nov. Sth.—The British forces at Jellah bad and Cabul have joined bands, and are holding

communication.

Sydney, Nov. 10th.—The Catholic Archbishop has publicly denounced the new Education Bill, likening it to the ancient instrument of torture called the scaverger's daughter.

The anniversary of the Prince of Wales' birthday was observed as a public holiday to-day. There was an enormous attendance at the exhibition, where a demonstration took place of the Trade and Friendly societies.

There is a rumor from the Colonies, but whether the Republican candidate for Governor of the State of New York has been elected. This result was anticipated owing to the split in the Democratic ranks, and as this result will only intensify the bitter fend there is no doubt of the State going Republican in 1880 for President. Tilden might as well hang up the rottless fixed as there is no doubt of the state going Republican in 1880 for President. 1880 for President. Tilden might as wen hang up his political fiddle as there is no chance for him in 1880. With the loss of the great State of New York by the Democrats, they do not stand a ghost of a chance, and if Gen'l Grant should be the Republican candidate he will sweep the country from Maine to California.

CAUTION TO THE PUBLIC

To avoid imposition, purchasers of Waltham Watches will observe that every genume watch, whether gold or aliver, bears our trade mark on both case and movement. Gold cases are stamped "A. W. Co." and guarantee certificates accompany them. Silver cases are stamped "A.m. Watch Co., Wattham, Mass., Sheriing Silver," and scoompanied by guarantee certificates, signed R. E. bins, Treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of either dis

engraved upon all movements, irrespective of either distinguishing marks.

This caution is rendered necessary by reason of the fact
that our cases are frequently separated from our movements and put into worthless movements of other makers,
and sice nerse, thus affecting injuriously the performance
of the watches and vitiating our guarantee, which is antended to cover only our complete watches wholly made
by us. It is necessary, also, because it is as notomous as
to be a public scandal, that there is great fraud in the
metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays
that many gold and silver cases offered in the market are
debased from from 10 to 29 per cent from the quality
they assume to be. This is a fraud upon the purchaser, and
accounts for the low price at which such cased watches
have been said.

accounts for the low price at which such cased watches have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of ful plate inovements, known by the marks "Wim. Eliery," "Appleton. Tracy & Co.," "Waltham Watch Co., "P. S. Bartlett.," and "Broadway," giving to them not only a highly improved appearance, but great additional value we embody in them such of the best results of our experience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good per formance and solid excellence at moderate cost. The alterations have been made with the view of bleasing

formance and solid excellence at moderate cost. The alterations have been made with the view of pleasing practical watch maker, as well as watch wearers,

We awall curselves, too, of this occasion to warn the public against cluster watches. The superiority of Waitham goods, in all grades, is now so generally acknowledged that our competitors, Swiss and American, seem to have no resource but so present the attraction of risw price. Their goods being inferior to ours, they have to sell them for what they can get. Times are hard, and people generally not knowing a good watch from a bad one, very often allow a small price to decide them. William Morris, the emiaent English Lecturer on Art and Labor Topics, is a recent lecture delivered before the "Trades Guild," says:

"I know that the public in general are set upon having things cheap, being so ignorant that they do not know when they get them nasty, also so ignorant that they neither know sor care whether they give a man his due. I know that the manufacturers, so called, are so set on carying out competition to ils utmost, competition of cheepness, not of excellence, that they meet the bargain hunters haif way, and cheerfully furnish them with nasty wares at the cheap price they are asked for, by means of what can be called by no prettier name thun france."

We are much mistaken if this is what the public want or expects, of us, at least. Good watches cannot be made when neither workman nor employer has pride in his occupation; linterest and pleasure in the work are both wanting, and both are essential in good watch making. Low price, especially in watches, means low quality, with low performance and Aigh repairs.

wanting, and both are ess-nilal in good watch making Low price, especially in watches, means low quality, will low performance and high reperis.

Our mission was, and our business is, to make good watches, whatever the cost; holding firmly to this single purpose, we have seen improvement in quality and reduction in cost, by means of discoveries and improvements is machinery and by natural causes, go steadily on together until we can truly say. Waitham Watches in their respective grades, are the best watches made; and as to the lower grades, are the best watches made; and as to the lower grades, are within the reach of everybody who carns wages. Our prices are as low as they ought a be, and as low as they will be. Watches cannot be made in the model of the property of the price for it. The more you pay an honest dealer the better satisfied you will be the end; don't be deceived by chaspiness—quality descends faster than price. ROBBINS & APPLETON,
